

Each day of the Legislative session, a “**Doctor of the Day**” provides basic first aid services to legislators and visitors at the North Carolina Legislative Building. Since more serious medical events are handled by local emergency medical personnel, all physicians are encouraged to participate. In return, physicians are introduced in both the House and Senate chambers, offered floor privileges (Physicians and Nurses of the Day are the only professionals afforded this privilege), and have the opportunity to attend committee meetings and visit with their local legislators throughout the day. Volunteering time to extend this valuable service enhances the image of the profession and bolsters the efforts of the North Carolina Medical Society. If you would like more information about serving as the Doctor of the Day, contact Jean Lewis at (800) 722-1350 or e-mail jlewis@ncmedsoc.org.
