

COMPENSATION OF ELECTED OFFICERS AND LEADERS

The 1988 House of Delegates directed the Board of Directors to publish annually the amount of income or payment directly or indirectly inuring to any member of the Board of Directors and/or its members if they also serve on any other governing boards of any other entities over which NCMS has direct or indirect substantial influence.

The President of the North Carolina Medical Society is the only officer receiving payment for services in the North Carolina Medical Society or any of its subsidiary corporations or other corporations in which it has direct or indirect substantial influence. The House of Delegates has directed that the President be offered an annual stipend of \$45,000 plus expenses in lieu of a per diem and that there shall be a periodic, progressive evaluation of the stipend.
