

Good Afternoon,

On behalf of the National Youth Leadership Forum: Medicine, it is my honor to invite you to participate in our **What's Your Specialty** event.

At NYLF Medicine, students will utilize their personal and academic strengths and skills in direct, hands on medical and health care activities, true-to-life medical simulations and unique and stimulating roleplaying exercises with peers and medical experts. Students will have the opportunity to gain valuable insight into the medical and healthcare field.

These panel traditionally rank among the students favorites because our speakers provide candor and insight on the challenges and opportunities in the study of medicine. I believe your addition to this summer's conference will provide an important contribution to our young people's experience and education.
